Blue Earth Watershed Civic Engagement – Michele

Was recently at a meeting to finalize the Phase II Plan of the BECE project. The organizers of the plan have agreed on the plan goals and funds associated with it.

- She also provided a document from BWSR that listed the Fiscal Year 2019 Grants as well as the Expiring Grants at the end of 2018.
- BWSR Academy will be held October 29 – 31, 2018 at Breezy Point.

4. PROGRAM UPDATES -

Nate –

Soil Health Field Day Update - Showed the board a display, put together by Eric Volson, regarding the Soil Your Undies challenge. Mentioned he was satisfied with the turnout, despite the rescheduled date. Was pleased with the variety of Press coverage the Soil Health Field Day received.

2019 Soil Health Plan – Need to start working on.

Buffer Law Update - He also discussed there may be a need to extend the due date to comply with the Buffer Law into 2019 due to the wet and unusual weather we have had most of 2018. To date there have been 89 Buffer waivers. He talked about changing some timelines in 2019 to improve work-flow.

BECE - After harvest, he would like to meet with area canning factory personnel to discuss cover-crop options, funding, etc.

Brandee – FSA is asking for our assistance in coordinating a Beginning Farmers Workshop. Will work with staff to come up with ideas.

Buffer Compliance Review - Provided the Board with four drafts related to Buffer Compliance for review; 1.) Buffer Law Complaint Form, 2.) Buffer Law Non-Compliant Determination on Public Ditches letter, 3.) Faribault SWCD Monitoring Plan for Buffer Compliance Tracking, and 4.) reminder post-card to Landowners with MN Buffer Law Waiver. The need to put a policy in place regarding the Buffer Law will need to be done. We could provide an option for the public to submit Buffer complaints online. Further action on the proposed Buffer Compliance documents will be addressed at the November Board meeting.

BECE - Brandee also discussed other programs and workshop suggestions and mentioned there are funds for public learning. Is seeking input on what areas we should focus future trainings or meetings on, i.e. specialty crop options, beginning farmers, organic, etc.

GIS Contract with Pro West - Lastly, she discussed GPS needs for field data collections and spot checks and has contacted Pro-west and Associates to assist with an onsite assessment and to put together some projects for us.

Motion by Feist to enter into an agreement with Pro West and Associates to provide an onsite assessment and complete contractual work on designated projects. Seconded by Mathews.

FEIST – Yes, MATHEWS – Yes

MOTION CARRIED

Michele – Attended and presented the 2019 Budget Request to the County Commissioners at their meeting on October 2nd. We aren't asking for any new money so there was little discussion and the meeting went fine.

2017 Audit Update - She also mentioned she spoke with the Auditor and the Audit report should be available in November. A suggestion the Auditor had was for the bank statement to first come to either the Chairman or Program Administrator for improved internal controls, especially considering the recent misappropriation of funds and fraud at another Soil and Water District. Michele will now have the bank statement come to her attention.

SWCD Safety Policy - She also stated she will be working on implementing a Safety Plan and Training for staff and include it in the Personnel Policy. She met with MCIT, which assessed the District's Risk Loss Management and has given her some feedback for safety and training. Will bring back a policy/plan for the Board to approve at a later date.

SUPERVISOR UPDATE -

Board Member Mensing provided an update on GBERBA and the GBERBA funds.

IV. MISCELLANEOUS
