

## County of Faribault

### Drainage Department

#### INFORMATIONAL MEETING NOTIFICATION

November 17th, 2020

System: County Ditch No. 18

Location: Kiester Township Sections 19, 20, 28-32;

Seely Township Section 25;

#### Dear Landowner:

There will be an informational meeting held on **Wednesday**, **December 2<sup>nd</sup>**, **2020** at **11** am on Faribault County Ditch No. 18 (CD18). A redetermination of benefits and damages was ordered on May 5<sup>th</sup>, 2020, due to the benefits not reflecting reasonable present-day land values and change in the benefited area. This meeting will cover the benefit and damage values.

Due to the pandemic with COVID-19, landowners can join this meeting 1 of the following 3 ways.

- 1. In person at the Golden Bubble (11575 State Hwy 22 Wells, MN 56097) \*Map on Back
- 2. By phone/call-in
- 3. By Zoom (internet meeting)

Social distancing will be followed if attending in person. Face masks are required. If you would like to join the meeting via Zoom you will need a computer, internet, microphone, and speakers. If you do not have a microphone built into your computer, you can call in as well to be able to hear and talk. If you would like to join via Zoom and/or phone/call-in, please contact the Drainage Department by phone 507-526-2388 or email <a href="mailto:sara.hauskins@co.faribault.mn.us">sara.hauskins@co.faribault.mn.us</a> by November 30<sup>th</sup>, 2020 for information needed.

The informational meeting is to discuss the benefit and damage values and get landowner feedback and concerns. The Viewers will be available for questions at the meeting. The Viewers and/or Drainage Department staff are available to answer questions or concerns prior to the meeting. Please do not hesitate to call, email, or write about questions or concerns regarding this process. Faribault County Drainage Department can be contacted at the office 507-526-2388 or by email merissa.lore@co.faribault.mn.us.

Sincerely,

Merissa Lore

**Drainage Manager** 

TO: Landowners on Faribault County Ditch 18 and CD-34

RE: Landowner informational meeting

Wednesday, December 2, 2020 11:00 AM
The Golden Bubble
11575 State Highway 22
Wells, Minnesota 56097
507-526-2388

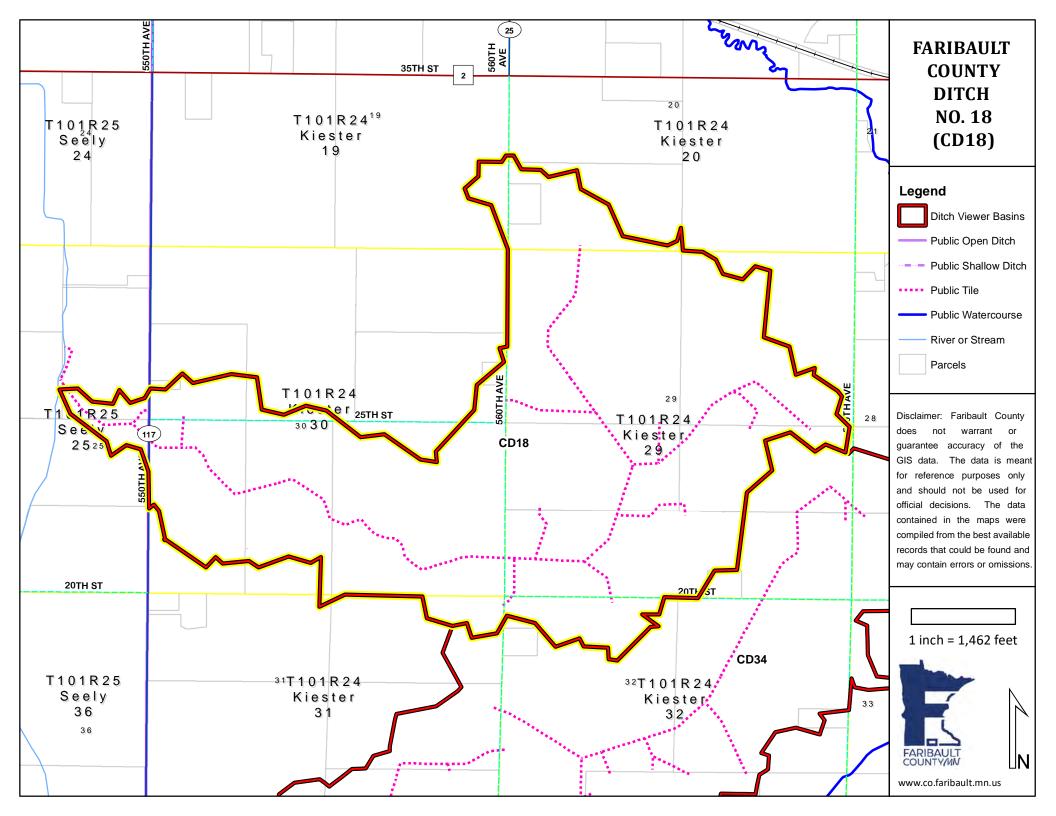

The Faribault County Drainage Authority ordered a Redetermination of Benefits of Faribault County Ditch 18 and CD-34. Viewers have been appointed to determine the benefits and damages to all property within the watersheds of CD-18 and CD-34. The redetermination of benefits and damages is the process in drainage law where Viewers determine a benefit value for each parcel within the watershed. The parcel benefit value is used to calculate a percent of total benefits. These percentages are then used to determine how much each parcel pays for repairs and maintenance on the County drainage system.

The Viewers will explain the viewing process and listen to any concerns. Landowners are encouraged to attend.

V	ıe	W	е	rs

Mark Behrends	507-383-6364
Bob Hansen	507-383-6288
Kendall Langseth	507-391-3438
John Thompson	507-525-4659

**Note:** Because of privacy laws, the Ditch Viewers are unable to obtain information regarding land enrolled in government programs. This documentation is asked to be provided by the landowners. If you have land enrolled in a **permanent** government program such as WRP, CREP, RIM, PWP, EWP, or WREP, please contact us to provide this documentation. **(This may save you some money) (CRP acres do not qualify)** This also refers to any unique drainage situations.

State of Minnesota
County of Faribault
In the matter of the Redetermination
Of Benefits of Faribault County CD-18
Faribault County, Minnesota
November 14, 2020
(Draft)

#### **Property Owners Report**

Pursuant to Minnesota Statute 103E.323, the following is the Property Owners Report from information in the Faribault County CD-18 Excel spreadsheet and Faribault County CD-18 Viewers Report, in the matter of the redetermination of benefits and damages, and damaged and benefitted acres of Faribault County CD-18, Faribault County, Minnesota.

- 1. This redetermination of benefits sets the percentage that you will be required to pay for all future repairs and maintenance on Faribault County CD-18
- 2. The name and address of the property owner is shown on the Excel spreadsheet for Faribault County CD-18
- 3. The description of each lot or tract and its area that is benefitted or damaged is shown on the Excel spreadsheet for Faribault County CD-18
- There are no acres added to any tract or lot and there are no public waters, wetlands, and other areas not currently being cultivated that are proposed to be drained in this proceeding
- 5. There are no acres which before the drainage benefits could be realized would require a public waters work permit to work in public waters under 103G.245 to excavate or fill a navigable water body under United States Code, Title 33, Section 403, or a permit to discharge into waters of United States under United States Code, Title 33, Section 1344.
- 6. There are no acres being assessed for drainage of areas that would be considered conversion of a wetland under United States Code, Title 16, Section 3821, if the area was placed in agricultural production
- 7. There are no damages to riparian rights
- 8. The amount of right-of-way acreage required is shown on the Excel spreadsheet for Faribault County CD-18
- 9. The amount that each tract or lot will be benefitted or damaged is shown on the Excel spreadsheet for Faribault County CD-18
- The damages or benefits to the property are shown on the Excel spreadsheet for Faribault County CD-18
- 11. No construction is planned as part of this proceeding.

- 12. A copy of the benefits and damages statement under 103E.321, Subdivision 2, relating to the property owner is on the Excel spreadsheet for Faribault County CD-18
- 13. The percentage of the cost to be assessed to the property owner in future repair and maintenance proceedings is shown on the Excel spreadsheet for Faribault County CD-18
- 14. The redetermination of benefits and damages and damaged and benefitted areas shall be used in place of the original benefits and damages and benefitted and damaged areas in all subsequent proceedings relating to the Faribault County CD-18 drainage system.
- 15. The full Viewer's Report is available for public inspection at the office of the Faribault County Auditor-Treasurer, at the Faribault County Courthouse, 415 North Main, Blue Earth, Minnesota (507-526-6211)
- 16. The Viewers will be available to answer questions from interested parties on December 2, 2020 from 10:30 AM to 12:30 PM at the Golden Bubble, 11575 State Highway 22, Wells, Minnesota 56097, Minnesota (507-526-2388)

#### Benefits and damages statement

This report covers the redetermination for a previously constructed drainage system. The basis for determining benefits and damages is therefore, based upon a comparison of the conditions that would have existed prior to the County tile systems construction, with those that do exist with the drainage system in a reasonable state of repair. Supporting documentation for the analysis and conclusions of the report are contained in our files and are available for inspection. The figures stated herein are based on a full and fair comparison of all pertinent facts and information that we were aware of at the time of this redetermination process. The following aids were used in this viewing process.

- Faribault County online GIS parcel information site
- USDA web soil survey
- Google Earth aerial satellite photos
- Yield averages taken from USDA national agriculture statistics service
- Production costs taken from University of Minnesota FinBin
- Average commodity sale prices taken from University of Minnesota FinBin
- Sales data from the Faribault County Assessor office and website
- Visual inspection of each 40 acre parcel or less
- Consultation with Faribault County Auditor / Treasurer and the Faribault County ditch inspector

The Viewers determined that the lands affected by the drainage system are generally similar and that the following comments refer to all such tracts.

#### 1. Existing land use, property value and economic productivity:

Land is presently used for building sites, roads, and for agricultural purposes. The property value is consistent with most agricultural land sales within Faribault County. Agricultural lands are primarily used for the production of corn and soybeans. The land has good economic productivity when properly drained.

## 2. Potential land use, property value and economic productivity from the drainage system:

The drainage system has been in existence for many years and provides drainage for agricultural purposes. The property value is consistent with most agricultural land sales within Faribault County. Land affected by the drainage system has the potential to produce above average yields.

#### 3. The benefits or damages from the drainage system:

Benefits derived by lands affected by the drainage system are due to (A) Improved capacity to remove surface waters due to previous construction and maintenance of the County tile system, which results in an increase in the current market value of property; or (B) an increase in the potential for agricultural production as a result of the previous construction and continued maintenance of the drainage system; or (C) increased value of the property as a result of potential different land use.

- 4. There is no damage to any riparian rights.
- 5. There are no acres added to any tract or lot and there are no public waters, wetlands, and other areas not currently being cultivated, that are proposed to be drained in this proceeding.
- 6. There are no acres which before the drainage benefits could be realized would require a public waters work permit to work in public waters under 103G.245 to excavate or fill a navigable water body under United States Code, Title 33, Section 403, or a permit to discharge into waters of United States under United States Code, Title 33, Section 1344.
- 7. There are no acres being assessed for drainage of areas that would be considered conversion of a wetland under United States Code, Title 16, Section 3821, if the area was placed in agricultural production.

Submitted this 14<sup>th</sup> day of November 2020

# Faribault County CD-18 Redetermination of Benefits Viewers Report November 14, 2020 (Draft)

#### Valuation prior to drainage

Beginning land use, property value, and economic productivity have been determined with the consideration that the benefited properties within the watershed originally did not have an adequate outlet for artificial drainage.

- "A" Standing water or cattails, wetland classification with economic productivity for agriculture purposes of \$0 per acre, and a market value of \$1,000 to \$2,000
- "B" Seasonally flooded/pasture ground. Pasture classification with economic productivity of \$70 per acre based on grazing days and/or hay values, and a market value of \$2,500 to \$3,500.
- "C" Wet subsoil Generally farmable land with moderate crop potential, with annual economic productivity of \$427 per acre based upon average annual yield of 80% of optimum with \$326 production costs, and a market value of \$4,000 to \$5,000.
- "D" Upland areas not needing artificial drainage and intermixed with wetter soils, with annual economic productivity of \$469 per acre based upon an average annual yield of 88% of optimum with \$326 production costs, and a market value of \$5,000 to \$6,000.

#### Valuation with NRCS recommended drainage

Potential land use, property value, and an increase in economic productivity, after public and private drainage have been installed as NRCS design standards as recommended in the Minnesota Drainage Guide, using current crop rotation, income, and expense:

- "A" Drained slough area, medium classification land with economic productivity of \$448 per acre based upon average production of 84% of optimum with \$326 per acre production costs, and a market value of \$5,000 to \$6,000.
- "B" Well drained ground, high land classification with economic productivity of \$475 per acre based upon average annual production of 89% of optimum with \$326 production costs, and a market value of \$5,500 to \$6,500.
- "C" Well drained ground, highest land classification with economic productivity of \$485 per acre based upon average annual production of 91% of optimum with \$326 production costs, and a market value of \$6,000 to \$7,500.
- "D" Well drained ground, high land classification with improved farm ability, with economic productivity of \$501 per acre based upon average production of 94% of optimum with \$326 production costs, and a market value of \$5,500 to \$6,500.

Utilizing these productive values, potential benefit values were determined for the system based upon a 25 year effective life with proper maintenance, private tile improvement cost were depreciated over the same 25 year period, and an allowance of 0.5% return on the system investment. A three year average Township yield was used for the benefit value calculations along with a three year average sale price for the corn and beans.

#### **Increased productivity**

<u>Crop</u>	<u>Yield</u>	<u>Value</u>	<u>Income</u>	<u>%</u>	<u>Adjusted</u>
Corn	174.2	\$3.49	\$608	5 <del>0%</del>	\$304
Beans	51.0	\$9.00	\$459	50%	<u>\$229</u>
					\$534

#### **Production costs**

Corn \$426 X 50% = \$213 Beans \$226 X 50% = \$113 \$326

#### Potential Benefit value

	84% of \$534 \$448	<b>"B"</b> 89% of \$534 \$475	<b>"C"</b> 91% of \$534 \$485	94% of \$534 \$501
Minus cost of production Net income Previous income Increased income Private tile costs Annual increase	\$326 \$122 \$0 \$122 \$56 \$66	\$326 \$149 \$70 \$79 \$31 \$48	\$326 \$159 \$101 \$59 \$27 \$32	\$326 \$175 \$143 \$32 \$18 \$14
Capitalized for 25 years @ ½ %	\$1,551	\$1,121	\$743	\$329
% of potential Benefit	30%	35%	40%	60%
Reduced benefit Value	\$465	\$393	\$297	<b>\$197</b>

The potential benefit values have been reduced to reflect a less than optimum yield.

#### **Summary**

Faribault County CD-18 consists of 920.49 acres of farmland, building sites, and roads, with benefits of \$230,069

- a. 899.59 acres of farmland and building sites in Faribault County in Kiester and Seely Townships
- b. 20.90 acres of County and Township roads
- c. 920.49 total acres

Average land benefits, (reduced) over a 25 year period are \$306 per acre

a. A soil \$465b. B soil \$393c. C soil \$297d. D soil \$197

#### **Building site benefits**

a. (Average of B + C + D soils) X 1.5 = \$443

#### Wetland benefits

a. Documented permanent wetland benefits = (Average land benefit) X 0.1 = \$34

#### Ponds, woodland, and non-benefited acres

a. **\$0** 

#### Road benefits

- a. Gravel roads, County or Township (Average land benefit) X 1.0 = \$338
- b. Paved roads, County (Average land benefit) X 1.5 = **\$507**

#### Tile benefits

a. A tile benefit was given for most County tile at a rate of \$0.50 per linear foot. This value was given because of the ease of access for private tile, and also for the drainage the County tile may provide. 22,855 feet of County tile, \$9,160 of tile benefits

#### **Crop damages**

Crop damages will be paid per acre on standing crops damaged by construction or repair on the County tile, as determined by the Faribault County Ditch Inspector.

#### Benefits and damages statement

This report covers the redetermination for a previously constructed drainage system. The basis for determining benefits and damages is therefore, based upon a comparison of the conditions that would have existed prior to the County tile systems construction, with those that do exist with the drainage system in a reasonable state of repair. Supporting documentation for the analysis and conclusions of the report are contained in our files and are available for inspection. The figures stated herein are based on a full and fair comparison of all pertinent facts and information that we were aware of at the time of this redetermination process. The following aids were used in this viewing process.

- Faribault County online GIS parcel information site
- USDA web soil survey
- Google Earth aerial satellite photos
- Yield averages taken from USDA national agriculture statistics service
- Production costs taken from University of Minnesota FinBin
- Average commodity sale prices taken from University of Minnesota FinBin
- Sales data from the Faribault County Assessor office and website
- Visual inspection of each 40 acre parcel or less
- Consultation with Faribault County Auditor / Treasurer and the Faribault County ditch inspector

The Viewers determined that the lands affected by the drainage system are generally similar and that the following comments refer to all such tracts.

#### 1. Existing land use, property value and economic productivity:

Land is presently used for building sites, roads, and for agricultural purposes. The property value is consistent with most agricultural land sales within Faribault County. Agricultural lands are primarily used for the production of corn and soybeans. The land has good economic productivity when properly drained.

## 2. Potential land use, property value and economic productivity from the drainage system:

The drainage system has been in existence for many years and provides drainage for agricultural purposes. The property value is consistent with most agricultural land sales within Faribault County. Land affected by the drainage system has the potential to produce above average yields.

#### 3. The benefits or damages from the drainage system:

Benefits derived by lands affected by the drainage system are due to (A) Improved capacity to remove surface waters due to previous construction and maintenance of the County tile system, which results in an increase in the current market value of property; or (B) an increase in the potential for agricultural production as a result of the previous construction and continued maintenance of the drainage system; or (C) increased value of the property as a result of potential different land use.

- 4. There is no damage to any riparian rights.
- 5. There are no acres added to any tract or lot and there are no public waters, wetlands, and other areas not currently being cultivated, that are proposed to be drained in this proceeding.
- 6. There are no acres which before the drainage benefits could be realized would require a public waters work permit to work in public waters under 103G.245 to excavate or fill a navigable water body under United States Code, Title 33, Section 403, or a permit to discharge into waters of United States under United States Code, Title 33, Section 1344.
- 7. There are no acres being assessed for drainage of areas that would be considered conversion of a wetland under United States Code, Title 16, Section 3821, if the area was placed in agricultural production.
