

# County of Faribault

## Drainage Department

## INFORMATIONAL MEETING NOTIFICATION

August 11<sup>th</sup>, 2021

Faribault County Ditch #86 System: Dunbar Township Sections 7-9, 14-29, 35-36; Location: Minnesota Lake Township Sections 1, 12-14, 23-24

RE: Redetermination of Benefits Informational Meeting

Dear Landowner:

There will be an informational meeting held on Friday, September 3<sup>rd</sup>, 2021, at 11:00 am at the Golden Bubble (11575 State Highway 22 Wells, Minnesota 56097) on Faribault County Ditch #86 (CD86). A redetermination of benefits and damages was ordered on July 21st, 2020, due to the benefits not reflecting reasonable present-day land values and change in the benefited area. The Faribault County Drainage Department completed an inspection of the system in summer of 2020. Based on the inspection completed, repairs to CD86 are recommended. The proposed repairs will be discussed at the meeting. A Staff Repair Report can be found online at https://www.co.faribault.mn.us/drainage/pages/notices-reports. This meeting will cover the benefit and damage values and proposed repairs to the system.

Due to the pandemic with COVID-19, landowners can join this meeting 1 of the following 3 ways.

- 1. In person at the Golden Bubble (11575 State Highway 22 Wells, Minnesota 56097) \*Map on Back
- 2. By phone/call-in
- 3. By Zoom (internet meeting)

If you would like to join the meeting via Zoom you will need a computer, internet, microphone, and speakers. If you do not have a microphone built into your computer, you can call in as well to be able to hear and talk. If you would like to join via Zoom and/or phone/call-in, please contact the Drainage Department by phone 507-526-2388 or email sara.hauskins@co.faribault.mn.us by September 2<sup>nd</sup>, 2021, for information needed.

The informational meeting is to discuss the benefit and damage values and get landowner feedback and concerns. The Viewers will be available for questions at the meeting. If you have questions or concerns, please contact the Faribault County Drainage Department at the office 507-526-2388 or by email merissa.lore@co.faribault.mn.us.

Sincerely.

1 Mul

Merissa Lore Drainage Manager

# Golden Bubble

The Golden Bubble is conveniently located off Interstate 90 at exit 138 on Minnesota Highway 22. The address is 11575 State Highway 22, Wells MN 56097.

TO: Landowners on Faribault County CD-86

RE: Final landowner informational meeting

## Friday, September 3, 2021 11:00 AM The Golden Bubble 11575 State Highway 22 Wells, Minnesota 56097 507-526-2388

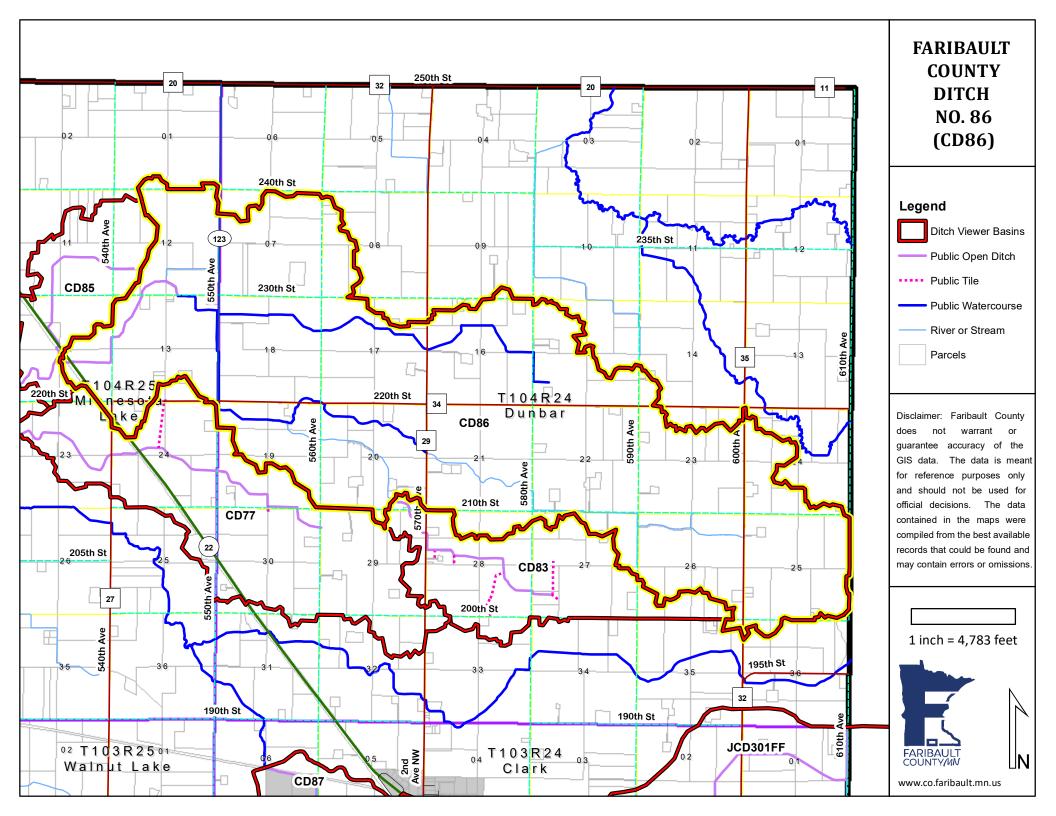

The Faribault County Drainage Authority ordered a Redetermination of Benefits of Faribault County CD-86. Viewers have been appointed to determine the benefits and damages to all property within the watershed of CD-86. The redetermination of benefits and damages is the process in drainage law where Viewers determine a benefit value for each parcel within the watershed. The parcel benefit value is used to calculate a percent of total benefits. These percentages are then used to determine how much each parcel pays for repairs and maintenance on the County drainage system.

The Viewers will explain the viewing process and listen to any concerns. Landowners are encouraged to attend.

Viewers	
Mark Behrends	507-383-6364
Bob Hansen	507-383-6288
Kendall Langseth	507-391-3438
John Thompson	507-525-4659

**Note:** Because of privacy laws, the Ditch Viewers are unable to obtain information regarding land enrolled in government programs. This documentation is asked to be provided by the landowners. If you have land enrolled in a **permanent** government program such as WRP, CREP, RIM, EWP, or WREP, please contact us to provide this documentation. **(This may save you some money) (CRP acres do not qualify)** This also refers to any unique drainage situations.

## State of Minnesota County of Faribault In the matter of the Redetermination Of Benefits of Faribault County CD-86 Faribault County, Minnesota August 11, 2021 (Draft)

## **Property Owners Report**

Pursuant to Minnesota Statute 103E.323, the following is the Property Owners Report from information in the Faribault County CD-86 Excel spreadsheet and Faribault County CD-86 Viewers Report, in the matter of the redetermination of benefits and damages, and damaged and benefitted acres of Faribault County CD-86, Faribault County, Minnesota.

- 1. This redetermination of benefits sets the percentage that you will be required to pay for all future repairs and maintenance on Faribault County CD-86
- 2. The name and address of the property owner is shown on the Excel spreadsheet for Faribault County CD-86
- 3. The description of each lot or tract and its area that is benefitted or damaged is shown on the Excel spreadsheet for Faribault County CD-86
- 4. There are no acres added to any tract or lot and there are no public waters, wetlands, and other areas not currently being cultivated that are proposed to be drained in this proceeding
- 5. There are no acres which before the drainage benefits could be realized would require a public waters work permit to work in public waters under 103G.245 to excavate or fill a navigable water body under United States Code, Title 33, Section 403, or a permit to discharge into waters of United States under United States Code, Title 33, Section 1344.
- 6. There are no acres being assessed for drainage of areas that would be considered conversion of a wetland under United States Code, Title 16, Section 3821, if the area was placed in agricultural production
- 7. There are no damages to riparian rights
- 8. The amount of right-of-way acreage required is shown on the Excel spreadsheet for Faribault County CD-86
- 9. The amount that each tract or lot will be benefitted or damaged is shown on the Excel spreadsheet for Faribault County CD-86
- 10. The damages or benefits to the property are shown on the Excel spreadsheet for Faribault County CD-86
- 11. No construction is planned as part of this proceeding.

- A copy of the benefits and damages statement under 103E.321, Subdivision 2, relating to the property owner is on the Excel spreadsheet for Faribault County CD-86
- 13. The percentage of the cost to be assessed to the property owner in future repair and maintenance proceedings is shown on the Excel spreadsheet for Faribault County CD-86
- 14. The redetermination of benefits and damages and damaged and benefitted areas shall be used in place of the original benefits and damages and benefitted and damaged areas in all subsequent proceedings relating to the Faribault County CD-86 drainage system.
- 15. The full Viewer's Report is available for public inspection at the office of the Faribault County Auditor-Treasurer, at the Faribault County Courthouse, 415 North Main, Blue Earth, Minnesota (507-526-6211)
- 16. The Viewers will be available to answer questions from interested parties on September 3, 2021 from 10:30 AM to 12:30 PM at the Golden Bubble, 11575 State Highway 22, Wells, Minnesota 56097, Minnesota

## Benefits and damages statement

This report covers the redetermination for a previously constructed drainage system. The basis for determining benefits and damages is therefore, based upon a comparison of the conditions that would have existed prior to the County open ditch construction, with those that do exist with the drainage system in a reasonable state of repair. Supporting documentation for the analysis and conclusions of the report are contained in our files and are available for inspection. The figures stated herein are based on a full and fair comparison of all pertinent facts and information that we were aware of at the time of this redetermination process. The following aids were used in this viewing process.

- Faribault County online GIS parcel information site
- USDA web soil survey
- Google Earth aerial satellite photos
- Yield averages taken from USDA national agriculture statistics service
- Production costs taken from University of Minnesota FinBin
- Average commodity sale prices taken from University of Minnesota FinBin
- Sales data from the Faribault County Assessor office and website
- Visual inspection of each 40 acre parcel or less
- Consultation with Faribault County Auditor / Treasurer and the Faribault County ditch inspector

The Viewers determined that the lands affected by the drainage system are generally similar and that the following comments refer to all such tracts.

## 1. Existing land use, property value and economic productivity:

Land is presently used for building sites, roads, railroad and for agricultural purposes. The property value is consistent with most agricultural land sales within Faribault County. Agricultural lands are primarily used for the production of corn and soybeans. The land has good economic productivity when properly drained.

# 2. Potential land use, property value and economic productivity from the drainage system:

The drainage system has been in existence for many years and provides drainage for agricultural purposes. The property value is consistent with most agricultural land sales within Faribault County. Land affected by the drainage system has the potential to produce above average yields.

## 3. The benefits or damages from the drainage system:

Benefits derived by lands affected by the drainage system are due to (A) Improved capacity to remove surface waters due to previous construction and maintenance of the County open ditch, which results in an increase in the current market value of property; or (B) an increase in the potential for agricultural production as a result of the previous construction and continued maintenance of the drainage system; or (C) increased value of the property as a result of potential different land use.

- 4. There is no damage to any riparian rights.
- 5. There are no acres added to any tract or lot and there are no public waters, wetlands, and other areas not currently being cultivated, that are proposed to be drained in this proceeding.
- 6. There are no acres which before the drainage benefits could be realized would require a public waters work permit to work in public waters under 103G.245 to excavate or fill a navigable water body under United States Code, Title 33, Section 403, or a permit to discharge into waters of United States under United States Code, Title 33, Section 1344.
- 7. There are no acres being assessed for drainage of areas that would be considered conversion of a wetland under United States Code, Title 16, Section 3821, if the area was placed in agricultural production.

This report is respectfully submitted to the Drainage Authority of Faribault County by:

Mark Behrends
Robert Hansen
Kendall Langseth
John Thompson

Submitted this 11<sup>th</sup> day of August 2021

## Faribault County CD-86 Redetermination of Benefits Viewers Report August 11, 2021 (Draft)

## Valuation prior to drainage

Beginning land use, property value, and economic productivity have been determined with the consideration that the benefited properties within the watershed originally did not have an adequate outlet for artificial drainage.

- "A" Standing water or cattails, wetland classification with economic productivity for agriculture purposes of \$0 per acre, and a market value of \$1,000 to \$2,000
- "B" Seasonally flooded, pasture ground. Pasture classification with economic productivity of \$90 per acre based on grazing days and/or hay values, and a market value of \$2,500 to \$3,500.
- "C" Wet subsoil, generally farmable land with moderate crop potential, with annual economic productivity of \$507 per acre based upon average annual yield of 78% of optimum with \$326 production costs, and a market value of \$4,000 to \$5,000.
- "D" Upland areas not needing artificial drainage and intermixed with wetter soils, with annual economic productivity of \$572 per acre based upon an average annual yield of 88% of optimum with \$326 production costs, and a market value of \$5,000 to \$6,000.

## Valuation with NRCS recommended drainage

Potential land use, property value, and an increase in economic productivity, after public and private drainage have been installed as NRCS design standards as recommended in the Minnesota Drainage Guide, using current crop rotation, income, and expense:

- "A" Drained slough area, medium classification land with economic productivity of \$507 per acre based upon average production of 78% of optimum with \$326 per acre production costs, and a market value of \$5,000 to \$6,000.
- "B" Well drained ground, high land classification with economic productivity of \$539 per acre based upon average annual production of 83% of optimum with \$326 production costs, and a market value of \$5,500 to \$7,000.
- "C" Well drained ground, highest land classification with economic productivity of \$585 per acre based upon average annual production of 90% of optimum with \$326 production costs, and a market value of \$6,000 to \$8,000.
- "D" Well drained ground, high land classification with improved farm ability, with economic productivity of \$617 per acre based upon average production of 95% of optimum with \$326 production costs, and a market value of \$5,500 to \$7,000.

Utilizing these productive values, potential benefit values were determined for the system based upon a 25 year effective life with proper maintenance, private tile improvement cost were depreciated over the same 25 year period, and an allowance of 0.5% return on the system investment. A three year average Township yield was used for the benefit value calculations along with a three year average sale price for the corn and beans.

### Increased productivity

<u>Crop</u>	<u>Yield</u>	<u>Value</u>	Income	<u>%</u>	<u>Adjusted</u>
Corn	195.7	\$3.82	\$747	50%	\$374
Beans	58.7	\$9.41	\$552	50%	<u>\$276</u>
					\$650

## **Production costs**

Corn	\$426 X 50% =	\$213
Beans	\$226 X 50% =	\$113
		\$326

#### **Potential Benefit value**

	" <u>A"</u> 78% of \$650 \$507	<b>"<u>B"</u></b> 83% of \$650 \$539	90% of \$650 \$585	<u>"<b>D"</b></u> 95% of \$650 \$617
Minus cost of production Net income Previous income Increased income Private tile costs Annual increase	<u>\$326</u> \$181 <u>\$0</u> \$181 <u>\$56</u> \$125	<u>\$326</u> \$213 <u>\$90</u> \$123 <u>\$31</u> \$92	<u>\$326</u> \$259 <u>\$181</u> \$78 <u>\$27</u> \$51	<u>\$326</u> \$291 <u>\$246</u> \$45 <u>\$18</u> \$27
Capitalized for 25 years @ ½ %	\$2,930	\$2,167	\$1,196	\$645
% of potential Benefit	50%	55%	60%	65%
Reduced benefit Value	\$1,465	\$1,192	\$717	\$419

#### **Summary**

Faribault County CD-86 consists of 8,717.90 acres of farmland, building sites, railroad and roads with benefits of \$1,889,014

- a. 8,450.50 acres of farmland and building sites in Faribault County in Minnesota Lake and Dunbar Townships
- b. 259.60 acres of State, County and Township roads
- c. 7.80 acres of railroad
- d. 8,717.90 total acres

### Average land benefits, (reduced) over a 25 year period are \$948 per acre

•		• •
a.	A soil	\$1,465
b.	B soil	\$1,192

- c. C soil \$717
- d. D soil \$419

## **Building site benefits**

a. (Average of B + C + D soils) X 1.5 = **\$1,164** 

#### Wetland benefits

a. Documented permanent wetland benefits = (Average land benefit) X 0.1 = **\$95** 

## Ponds, woodland, and non-benefited acres

a. **\$0** 

## **Road benefits**

- a. Gravel roads, County or Township (Average land benefit) X 1.0 = **\$948**
- b. Paved roads, County (Wide)
- (Average land benefit) X 1.25 = **\$1,185**
- c. Paved roads, County

(Average land benefit) X 1.5 = **\$1,423** 

## Grass strip right of way easement acres

The Viewers and Engineer recommend establishment of a permanent one rod grass strip on each side of the total length of the open ditch, as per Minnesota Ditch Law, 103-E.021. This State law requires establishment of this 16.5 foot grass strip, beginning at the top of the berm, and extending outward. This strip must be planted in perennial vegetation of grass or legumes. The landowner is responsible for the control of noxious weeds. No fences or grazing of livestock is allowed within the one rod grass strip. The Viewers and Engineer recommend that no trees be allowed within this right-of-way.

### Grass strip right of way easement damages on cropland acres

Faribault County Assessor average value per tillable acre, based on land sales from October 1, 2020 to May 5, 2021 is \$7,692. \$7,692 is the value per acre for the easement on cropland acres.

### \$7,692 X 5.88 acres = \$45,229

## Grass strip right of way easement damages on trees, non-benefited, or building site acres

Faribault County Assessor average value per tillable acre, based on land sales from October 1, 2020 to May 5, 2021 is \$7,692. \$7,692 X 10% = \$769. \$769 is the value per acre for trees, non-benefited, or building site acres.

#### \$769 X 0.36 acres = \$277

### Construction right of way easement acres

The Viewers and Engineer recommend that a permanent easement be acquired 100 feet on each side of centerline of the open ditch. This easement gives the ditch authority the right to drive on or spread ditch spoils in the area. The area will most likely never be disturbed. If it is necessary to be on these acres during the growing season, the damaged crops will be paid at the Faribault County crop damage rate. (No construction easement was acquired thru building sites)

## Construction right of way easement damage

Faribault County Assessor average value per tillable acre, based on land sales from October 1, 2020 to May 5, 2021 is \$7,692. \$7,692 X 5% = \$385. \$385 is the value per acre for the easement on construction easement acres

## \$385 X 25.21 acres = \$9,706

## Total easement damages

Grass strip right of way and construction right of way = \$55,212

### **Crop damages**

Crop damages will be paid per acre on standing crops damaged by construction or repair on the County open ditch, as determined by the Faribault County Ditch Inspector.

## **Tiled in acres**

Kenneth Eckhardt (parcel 13.014.0200) has informed the viewers that he has about 20.00 acres tiled into the CD-86 watershed. These acres have been assigned benefits and are included in this re-determination of benefits.

## **Outlet Benefits**

Faribault County CD-86 outlets into Faribault County CD-85. CD-85 needs to be bigger and cleaned more often because of the additional water from CD-86. Using acres, drainage coefficient, amount of open ditch used, along with other factors. It is the Viewers recommendation that CD-86 have an outlet benefit of 27% into CD-85. This includes acquiring the grass strip and construction easement.

Faribault County CD-83 outlets into the Faribault County CD-86 watershed. CD-86 needs to be bigger and cleaned more often because of the additional water from CD-83. Using acres, drainage coefficient, amount of open ditch used, along with other factors. It is the Viewers recommendation that CD-83 have an outlet benefit of 3.5% into CD-86. This includes acquiring the grass strip and construction easement.

## Benefits and damages statement

This report covers the redetermination for a previously constructed drainage system. The basis for determining benefits and damages is therefore, based upon a comparison of the conditions that would have existed prior to the County open ditch construction, with those that do exist with the drainage system in a reasonable state of repair. Supporting documentation for the analysis and conclusions of the report are contained in our files and are available for inspection. The figures stated herein are based on a full and fair comparison of all pertinent facts and information that we were aware of at the time of this redetermination process. The following aids were used in this viewing process.

- Faribault County online GIS parcel information site
- USDA web soil survey
- Google Earth aerial satellite photos
- Yield averages taken from USDA national agriculture statistics service
- Production costs taken from University of Minnesota FinBin
- Average commodity sale prices taken from University of Minnesota FinBin
- Sales data from the Faribault County Assessor office and website
- Visual inspection of each 40 acre parcel or less
- Consultation with Faribault County Auditor / Treasurer and the Faribault County ditch inspector

The Viewers determined that the lands affected by the drainage system are generally similar and that the following comments refer to all such tracts.

### 1. Existing land use, property value and economic productivity:

Land is presently used for building sites, roads, railroad and for agricultural purposes. The property value is consistent with most agricultural land sales within Faribault County. Agricultural lands are primarily used for the production of corn and soybeans. The land has good economic productivity when properly drained.

## 2. Potential land use, property value and economic productivity from the drainage system:

The drainage system has been in existence for many years and provides drainage for agricultural purposes. The property value is consistent with most agricultural land sales within Faribault County. Land affected by the drainage system has the potential to produce above average yields.

## 3. The benefits or damages from the drainage system:

Benefits derived by lands affected by the drainage system are due to (A) Improved capacity to remove surface waters due to previous construction and maintenance of the County open ditch, which results in an increase in the current market value of property; or (B) an increase in the potential for agricultural production as a result of the previous construction and continued maintenance of the drainage system; or (C) increased value of the property as a result of potential different land use.

- 4. There is no damage to any riparian rights.
- 5. There are no acres added to any tract or lot and there are no public waters, wetlands, and other areas not currently being cultivated, that are proposed to be drained in this proceeding.
- 6. There are no acres which before the drainage benefits could be realized would require a public waters work permit to work in public waters under 103G.245 to excavate or fill a navigable water body under United States Code, Title 33, Section 403, or a permit to discharge into waters of United States under United States Code, Title 33, Section 1344.
- 7. There are no acres being assessed for drainage of areas that would be considered conversion of a wetland under United States Code, Title 16, Section 3821, if the area was placed in agricultural production.
