INFORMATIONAL MEETING NOTIFICATION

August 8th, 2023

System: Faribault and Martin County Joint Judicial Ditch #27
Location: Faribault County – Verona Township Sections 7-8, 17-18;

Martin County - Center Creek Township Sections 12

RE: Redetermination of Benefits Informational Meeting

Dear Landowner:

There will be an informational meeting held on Monday, August 28th, 2023, at 11:00 am at the Ag Center Conference Room (415 South Grove Street Blue Earth, Minnesota 56013) on Faribault and Martin County Joint Judicial Ditch #27 (JD27FM). A redetermination of benefits and damages was ordered on September 20th, 2022, due to the benefits not reflecting reasonable present-day land values and change in the benefited area. This meeting will cover the benefit values. This process determines what each parcel pays towards repairs and maintenance of the system.

Landowners can join this meeting 1 of the following 3 ways.

- 1. In person at the Ag Center Conference Room (415 South Grove Street Blue Earth, MN 56013) *Map on Back
- 2. By phone/call-in
- 3. By Zoom (internet meeting)

If you would like to join the meeting via Zoom you will need a computer, internet, microphone, and speakers. If you do not have a microphone built into your computer, you can call in as well to be able to hear and talk. If you would like to join via Zoom and/or phone/call-in, please contact the one of the following by Friday, August 25th, 2023, for information needed.

County Drainage Department	Phone Number	Email
Martin County	507-238-3130	shane.fett@co.martin.mn.us
Faribault County	507-526-2388	linda.adams@co.faribault.mn.us

The informational meeting is to discuss the benefit values and get landowner feedback and concerns. The Viewers will be available for questions at the meeting. If you have questions or concerns, please contact the Faribault County Drainage Department at 507-526-2388 or the Martin County Drainage Department at 507-238-3130.

Sincerely,

Faribault & Martin County Drainage Departments

TO: Landowners on Faribault – Martin Counties JD-8, JD-26, JD-27

RE: Landowner informational meeting

Monday, August 28, 2023 11:00AM
Blue Earth Ag Center
Ag Center Conference Room
415 South Grove Street
Blue Earth, Minnesota 56013
507-526-2388

The Faribault – Martin Counties Drainage Authority ordered a Redetermination of Benefits of Faribault – Martin Counties JD-8, JD-26, JD-27. Viewers have been appointed to determine the benefits and damages to all property within the watersheds of JD-8, JD-26, JD-27. The redetermination of benefits and damages is the process in drainage law where Viewers determine a benefit value for each parcel within the watershed. The parcel benefit value is used to calculate a percent of total benefits. These percentages are then used to determine how much each parcel pays for repairs and maintenance on the County drainage system.

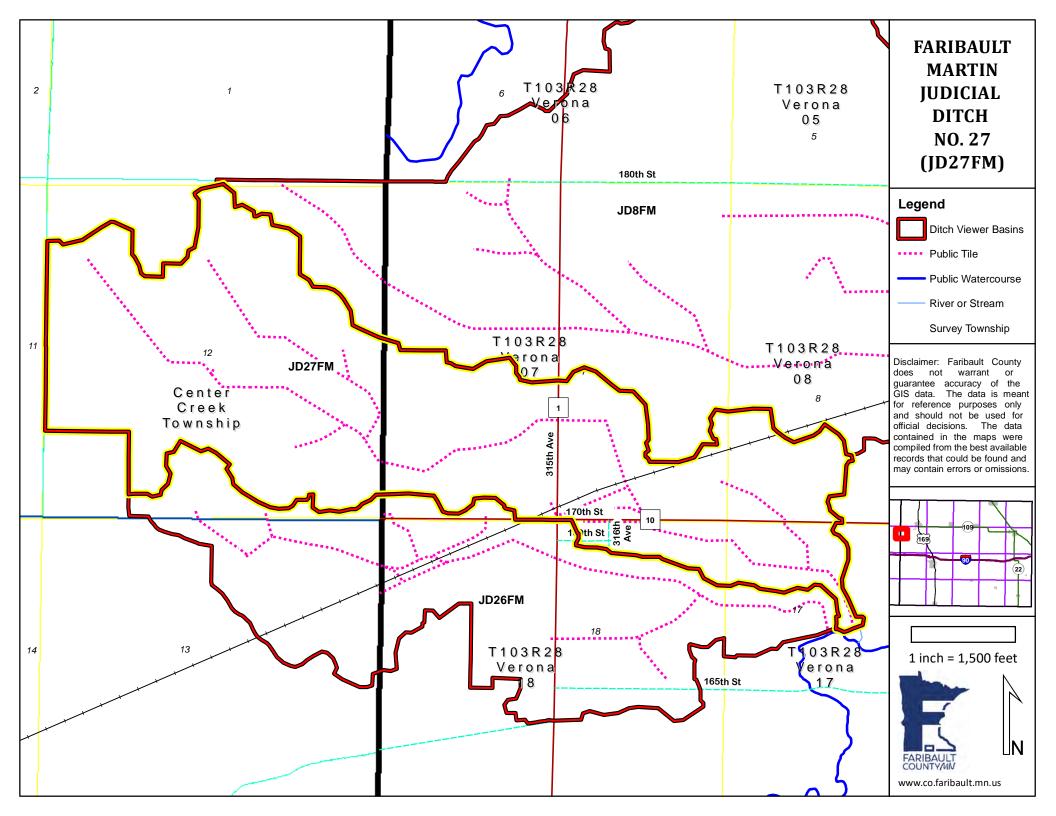

The Viewers will explain the viewing process and listen to any concerns.

<u>Viewers</u>

507-383-6364
507-383-6288
507-391-3438
507-383-7630

Note: Because of privacy laws, the Ditch Viewers are unable to obtain information regarding land enrolled in government programs. This documentation is asked to be provided by the landowners. If you have land enrolled in a **permanent** government program such as WRP, CREP, RIM, EWP, or WREP, please contact us to provide this documentation. **(This may save you some money) (CRP acres do not qualify)** This also refers to any unique drainage situations.

Faribault - Martin Counties JD-27 Redetermination of Benefits Viewers Report August 3, 2023 (Draft)

Valuation prior to drainage

Beginning land use, property value, and economic productivity have been determined with the consideration that the benefited properties within the watershed originally did not have an adequate outlet for artificial drainage.

- "A" Standing water or cattails, wetland classification with economic productivity for agriculture purposes of \$0 per acre, and a market value of \$1,000 to \$2,000
- "B" Seasonally flooded/pasture ground. Pasture classification with economic productivity of \$140 per acre based on grazing days and/or hay values, and a market value of \$2,500 to \$4,500
- "C" Wet subsoil Generally farmable land with moderate crop potential, with annual economic productivity of \$660 per acre based upon average annual yield of 70% of optimum with \$373 production costs, and a market value of \$5,000 to \$7,500
- "D" Upland areas not needing much artificial drainage and intermixed with wetter soils, with annual economic productivity of \$801 per acre based upon an average annual yield of 85% of optimum with \$373 production costs, and a market value of \$5,000 to \$7,000

Valuation with NRCS recommended drainage

Potential land use, property value, and an increase in economic productivity, after public and private drainage have been installed as NRCS design standards as recommended in the Minnesota Drainage Guide, using current crop rotation, income, and expense:

- "A" Drained slough area, medium classification land with economic productivity of \$811 per acre based upon average production of 86% of optimum with \$373 per acre production costs, and a market value of \$5,000 to \$7,000
- "B" Well drained ground, high land classification with economic productivity of \$849 per acre based upon average annual production of 90% of optimum with \$373 production costs, and a market value of \$6,000 to \$9,000
- "C" Well drained ground, highest land classification with economic productivity of \$886 per acre based upon average annual production of 94% of optimum with \$373 production costs, and a market value of \$6,500 to \$9,500
- "D" Well drained ground, high land classification with improved farm ability, with economic productivity of \$915 per acre based upon average production of 97% of optimum with \$373 production costs, and a market value of \$6,000 to \$8,500

Utilizing these productive values, potential benefit values were determined for the system based upon a 25 year effective life with proper maintenance, private tile improvement cost were depreciated over the same 25 year period, and an allowance of 0.5% return on the system investment. A three year average County yield was used for the benefit value calculations along with a three year average sale price for the corn and beans.

Increased productivity

Crop	<u>Yield</u>	<u>Value</u>	<u>Income</u>	<u>%</u>	<u>Adjusted</u>
Corn	209.1	\$5.32	\$1,112	5 0%	\$556
Beans	61.9	\$12.49	\$773	50%	<u>\$387</u>
					\$943

Production costs

Corn \$490 X 50% = \$245 Beans \$256 X 50% = \$128 \$373

Potential Benefit value

	"A"	<u>"B"</u>	<u>"C"</u>	<u>"D"</u>
	86% of \$943	90% of \$943	94% of \$943	97% of \$943
	\$811	\$849	\$886	\$915

Minus cost				
of production	<u>\$373</u>	<u>\$373</u>	<u>\$373</u>	<u>\$373</u>
Net income	\$438	\$476	\$513	\$542
Previous income	<u>\$0</u>	<u>\$140</u>	\$287	\$428
Increased income	\$4 38	\$336	\$226	\$113
Private tile costs	<u>\$56</u>	<u>\$31</u>	<u>\$27</u>	<u>\$18</u>
Annual increase	\$382	\$305	\$ 199	\$95
Capitalized for				
25 years @ ½ %	\$8,954	\$7,141	\$4,673	\$2,231
% of potential				
Benefit	70%	70%	70%	70%
Reduced benefit				
Value	\$6,268	\$4,999	\$3,271	\$1,562

The potential benefit values have been reduced to reflect a less than optimum yield.

Summary

- a. Faribault Martin Counties JD-27 consists of 808.08 acres of farmland, roads, railroad and building sites with benefits of \$3,002,194
- b. 354.71 acres of farmland and building sites in Faribault County in Verona Township
- c. 17.00 acres of County roads in Faribault County in Verona Township
- d. 10.70 acres of DM & E Railroad in Faribault County
- e. 382.41 total acres in Faribault County with \$1,364,479 of benefits, 45.4494% of the total benefits
- f. 423.37 acres of farmland and building sites in Martin County in Center Creek Township
- g. 2.30 acres of Township roads in Martin County in Center Creek Township
- h. 425.67 total acres in Martin County with \$1,637,715 of benefits, 54.5506% of the total benefits

Benefit values were adjusted based on multiple factors. Location to the County tile, drainage coefficient, soil type. All benefits were reduced from the potential benefit value.

Reduced Benefit Value

Average land benefits, over a 25 year period are \$4,025 per acre

- a. A soil \$6,268b. B soil \$4,999c. C soil \$3,271
- d. D soil \$1,562

Building site benefit (reduced)

a. (Average of B + C + D soils) X 1.5 = \$4,916

Ponds, woodland, and non-benefited acres

a. **\$10**

Road benefits (reduced)

- a. Gravel roads, County or Township (Average land benefit) X 1.0 = \$4,025
- b. Paved roads, County (Average land benefit) X 1.5 = **\$6,037**

Tile benefits

a. A tile benefit was given for most County tile at a rate of \$0.50 per linear foot. This value was given because of the ease of access for private tile, and also for the drainage the County tile may provide. 23,585 feet of County tile, \$11,793 of tile benefits

Crop damages

Crop damages will be paid per acre on standing crops damaged by construction or repair on the County open ditch or County tile system as determined by the Faribault or Martin County Drainage Departments.

Benefits and damages statement

This report covers the Redetermination of Benefits for a previously constructed drainage system. The basis for determining benefits and damages is therefore, based upon a comparison of the conditions that would have existed prior to the County tile systems construction, with those that do exist with the drainage system in a reasonable state of repair. Supporting documentation for the analysis and conclusions of the report are contained in our files and are available for inspection. The figures stated herein are based on a full and fair comparison of all pertinent facts and information that the viewers were aware of at the time of this redetermination process. The following aids were used in this viewing process.

- Faribault and Martin Counties online GIS parcel information site
- USDA web soil survey
- Google Earth aerial satellite photos
- Yield averages taken from USDA national agriculture statistics service
- Production costs taken from University of Minnesota FinBin
- Average commodity sale prices from Minnesota Finbin
- Sales data from the Faribault and Martin Counties Assessor office and website
- Visual inspection of each 40 acre parcel or less
- Consultation with the Counties Auditor / Treasurer, drainage staff, ditch inspectors

The Viewers determined that the lands affected by the drainage system are generally similar and that the following comments refer to all such tracts.

1. Existing land use, property value and economic productivity:

Land is presently used for building sites, roads, railroad, and for agricultural purposes. The property value is consistent with most agricultural land sales within Faribault and Martin Counties. Agricultural lands are primarily used for the production of corn and soybeans. The land has good economic productivity when properly drained.

2. Potential land use, property value and economic productivity from the drainage system:

The drainage system has been in existence for many years and provides drainage for agricultural purposes. The property value is consistent with most agricultural land sales within Faribault and Martin Counties. Land affected by the drainage system has the potential to produce above average yields.

3. The benefits or damages from the drainage system:

Benefits derived by lands affected by the drainage system are due to (A) Improved capacity to remove surface waters due to previous construction and maintenance of the County tile system, which results in an increase in the current market value of property; or (B) an increase in the potential for agricultural production as a result of the previous construction and continued maintenance of the drainage system; or (C) increased value of the property as a result of potential different land use.

- 4. There is no damage to any riparian rights.
- 5. There are no acres added to any tract or lot and there are no public waters, wetlands, and other areas not currently being cultivated, that are proposed to be drained in this proceeding.
- 6. There are no acres which before the drainage benefits could be realized would require a public waters work permit to work in public waters under 103G.245 to excavate or fill a navigable water body under United States Code, Title 33, Section 403, or a permit to discharge into waters of United States under United States Code, Title 33, Section 1344.
- 7. There are no acres being assessed for drainage of areas that would be considered conversion of a wetland under United States Code, Title 16, Section 3821, if the area was placed in agricultural production.

This report is respectfully submitted to the Drainage Authority of Faribault and Martin Counties JD-27 by:

Mark Behrends	
Robert M. Hansen	
Kendall Langseth

State of Minnesota Counties of Faribault – Martin

In the matter of the Redetermination of Benefits
Of Faribault - Martin Counties Ditch JD-27
Faribault - Martin Counties, Minnesota
August 3, 2023
(Draft)

Property Owners Report

Pursuant to Minnesota Statute 103E.323, the following is the Property Owners Report from information in the Faribault - Martin Counties JD-27 Viewers Report and Faribault - Martin Counties JD-27 Excel spreadsheet, in the matter of the redetermination of benefits and damages, and damaged and benefitted acres of Faribault - Martin Counties JD-27, Faribault - Martin Counties, Minnesota.

- 1. This redetermination of benefits sets the percentage that you will be required to pay for all future repairs and maintenance on Faribault Martin Counties JD-27
- 2. The name and address of the property owner is shown on the Excel spreadsheet for Faribault Martin Counties JD-27
- 3. The description of each lot or tract and its area that is benefitted or damaged is shown on the Excel spreadsheet for Faribault Martin Counties JD-27
- 4. There are no acres added to any tract or lot and there are no public waters, wetlands, and other areas not currently being cultivated that are proposed to be drained in this proceeding
- 5. There are no acres which before the drainage benefits could be realized would require a public waters work permit to work in public waters under 103G.245 to excavate or fill a navigable water body under United States Code, Title 33, Section 403, or a permit to discharge into waters of United States under United States Code, Title 33, Section 1344.
- 6. There are no acres being assessed for drainage of areas that would be considered conversion of a wetland under United States Code, Title 16, Section 3821, if the area was placed in agricultural production.
- 7. There are no damages to riparian rights
- 8. The amount of right-of-way acreage required is shown on the Excel spreadsheet for Faribault Martin Counties JD-27
- 9. The amount that each tract or lot will be benefitted or damaged is shown on the Excel spreadsheet for Faribault Martin Counties JD-27
- The damages or benefits to the property are shown on the Excel spreadsheet for Faribault - Martin Counties JD-27

- 11. No construction is planned as part of this Redetermination of Benefits proceeding
- A copy of the benefits and damages statement under 103E.321, Subdivision 2, relating to the property owner is on the Excel spreadsheet for Faribault - Martin Counties JD-27
- 13. The percentage of the cost to be assessed to the property owner in future repair and maintenance proceedings is shown on the Excel spreadsheet for Faribault Martin Counties JD-27
- 14. The redetermination of benefits and damages and damaged and benefitted areas shall be used in place of the original benefits and damages and benefitted and damaged areas in all subsequent proceedings relating to the Faribault - Martin Counties JD-27 drainage system
- 15. The full Viewer's Reports are available for public inspection at the office of the Auditor / Treasurer at the Faribault County Courthouse, 415 North Main Street, Blue Earth, Minnesota 56013 and the Martin County Courthouse, 201 Lake Avenue, Fairmont, Minnesota 56031
- 16. The Viewers will be available to answer questions from interested parties on August 28, 2023 from 10:30 AM to 12:30 PM in the Ag Center Conference Room (415 South Grove Street, Blue Earth, Minnesota 56013)

Benefits and damages statement

This report covers the Redetermination of Benefits for a previously constructed drainage system. The basis for determining benefits and damages is therefore, based upon a comparison of the conditions that would have existed prior to the County tile systems construction, with those that do exist with the drainage system in a reasonable state of repair. Supporting documentation for the analysis and conclusions of the report are contained in our files and are available for inspection. The figures stated herein are based on a full and fair comparison of all pertinent facts and information that the viewers were aware of at the time of this redetermination process. The following aids were used in this viewing process.

- Faribault and Martin Counties online GIS parcel information site
- USDA web soil survey
- Google Earth aerial satellite photos
- Yield averages taken from USDA national agriculture statistics service
- Production costs taken from University of Minnesota FinBin
- Average commodity sale prices from Minnesota Finbin
- Sales data from the Faribault and Martin Counties Assessor office and website
- Visual inspection of each 40 acre parcel or less
- Consultation with the Counties Auditor / Treasurer, drainage staff, ditch inspectors

The Viewers determined that the lands affected by the drainage system are generally similar and that the following comments refer to all such tracts.

1. Existing land use, property value and economic productivity:

Land is presently used for building sites, roads, and railroad, and for agricultural purposes. The property value is consistent with most agricultural land sales within Faribault and Martin Counties. Agricultural lands are primarily used for the production of corn and soybeans. The land has good economic productivity when properly drained.

2. Potential land use, property value and economic productivity from the drainage system:

The drainage system has been in existence for many years and provides drainage for agricultural purposes. The property value is consistent with most agricultural land sales within Faribault and Martin Counties. Land affected by the drainage system has the potential to produce above average yields.

3. The benefits or damages from the drainage system:

Benefits derived by lands affected by the drainage system are due to (A) Improved capacity to remove surface waters due to previous construction and maintenance of the County tile system, which results in an increase in the current market value of property; or (B) an increase in the potential for agricultural production as a result of the previous construction and continued maintenance of the drainage system; or (C) increased value of the property as a result of potential different land use.

4. There is no damage to any riparian rights.

Submitted this 3rd day of August 2023

- 5. There are no acres added to any tract or lot and there are no public waters, wetlands, and other areas not currently being cultivated, that are proposed to be drained in this proceeding.
- 6. There are no acres which before the drainage benefits could be realized would require a public waters work permit to work in public waters under 103G.245 to excavate or fill a navigable water body under United States Code, Title 33, Section 403, or a permit to discharge into waters of United States under United States Code, Title 33, Section 1344.
- 7. There are no acres being assessed for drainage of areas that would be considered conversion of a wetland under United States Code, Title 16, Section 3821, if the area was placed in agricultural production.
