

Tires

Americans throw out more than 250 million tires every year – about one tire for every person

The state of Minnesota acknowledges old tires as a concern. There is a law in Minnesota which limits the number of tires owned by one household to 50. Tire businesses may have up to 500 waste tires without a permit from MPCA. It is also unlawful to burn unwanted tires or to dispose of them in road ditches.

Tire Disposal Options:

Call Prairieland Solid Waste Management <u>for information</u> 507-776-3232	Prairieland <u>does not</u> take tires	Summer Collection Options Available
Many stores which sell tires also take tires from customers	On-going	Contact tire stores for details
